

Irupé Alvarez

Frontend Web Developer

About me

I started in the tech world in 2022, taking courses and self-learning alongside my other activities. At the end of 2024, I started developing **web pages**. I'm currently continuing my training by designing **web applications** with **React.js**.

Projects

[RPG Diceroll App ↗](#)

Dice-rolling simulator for role-playing games. It works with components that integrate **React.js** with **TypeScript** and **CSS** styles. Packaged with **Vite**, it's served on **Netlify** hosting.

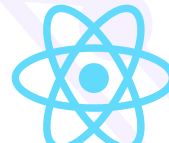

[Landing page modelo ↗](#)

Static example and practice website. Made with **HTML5/CSS3**, **JavaScript** and running on **Firebase**.
